PRODUCT DATA SHEET

CONTEX 70% COOLANT & ANTIFREEZE

Description

CONTEX 70% COOLANT & ANTIFREEZE is a high-performance concentrated antifreeze that is phosphate-free, silicate-free nitrate-free and borate-free ethylene glycol-based coolant that is designed to provide exceptional corrosion protection of all cooling system metals.

CONTEX 70% COOLANT & ANTIFREEZE is formulated using organic corrosion inhibitors to provide total cooling system protection and thus not readily deplete.

Benefits:

- Maximizes protection of all metals commonly found in the engine cooling systems
- Keeps engines at optimum operating temperatures contributing to improved fuel economy
- Excellent protection from cavitation, liner pitting, rust, scale and deposits formation
- Compatible with ordinary summer coolants
- Provides year-round cooling properties
- Protects against excessive evaporation
- High boiling point gives better cooling performance in high temperature conditions
- Excellent anti foam properties

Application:

CONTEX 70% COOLANT & ANTIFREEZE maybe diluted with water before use. It is hard water compatible and can be mixed with tap water before filling into the cooling systems.

- All types of heavy diesel and gasoline engines, vans, trucks, light vehicles
- Stationary engines regardless of fuel type used
- Marine cooling systems where its required
- Mixed fleets trucks or buses

Performance Level:

- **BS 6580**
- **ASTM D3306**

It is the responsibility of the end user to use this product in accordance with Engine Manufacturer recommendations.

Typical Properties:

Particulars	Values
Appearance	Clear
Specific Gravity @ 20 ^o C	1.13
pH, (50% volume)	8.5
Reserve Alkalinity,	12
Boiling Point, ^o C	>136
Glycol Content	70
Freezing Point ^o C	-64
